

BACKGROUND

Western TVET College is one of 50 Technical TVET Colleges in South Africa, whose seat is in Randfontein based in the Rand West City Municipality, it has four campuses in Randfontein, Krugersdorp Central, Krugersdorp West, and Carletonville and a satellite campus in Westonaria.

Western TVET College has been a leading institution in providing high-quality TVET programmes since 2003. We strive to offer our students a comprehensive range of practical and industry-relevant courses to equip them with the necessary skills. These courses assist our students in gaining the knowledge for a successful career. Furthering our offering and to broaden our reach we are seeking young dynamic learners to undertake an artisan training initiative on renewable energy technologies.

PURPOSE

The purpose of the advert is to:

Invite **unemployed** youth between the age of 18 and 30 years with electrical engineering background to apply for an Assistant Lecturer training on Renewable energy artisan in China.

OBJECTIVES

The main objective of the recruitment process is to create a pull of young graduates who after graduation would train other unemployed youth.

The general objective of the recruitment process can be summarised as:

- Skills development
